Allowable Subject Matter

1. Claims 1-2, 4-12 and 14-28 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Regarding the claimed limitations, Peltz teaches playing an introductory signal whenever a call is answered, however Peltz does not disclose playing the introductory signal after an initial audible signal is detected. Peltz also fails to disclose before the call is answered, a first agent of the call center has been selected to service the call.

With further respect to the claimed limitations, Noble Jr, U.S. Patent No. 6,356,634 (hereinafter Noble) discloses a method of selecting an agent before the call is answered and playing a prerecorded greeting during said call wherein the prerecorded greeting is recorded in the voice of the agent. However Noble fails to teach this greeting is played during a time when said call classifier is processing an initial audible signal.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to
